# Bulk Form Download

Introduction

The Bulk Form Download App allows users to download all electronic forms for an item in bulk. It works when customer, site, job, form name, engineer, asset description and asset number filters are applied. This proves to be a useful tool in assisting not only service teams but all teams who may require certain types of mobile forms all at once. It'll allow them to more easily download all the forms for an item that they need. This user guide will detail how to use the Bulk Form Download App.

The Bulk Form Download App

Click 'My Apps' and either Search for the 'Electronic Forms Bulk Download tool or click the button.
